16th Industry Symposium – 2026
in conjunction with 22nd ICDCIT – 2026

Theme: Reinventing Finance: A New Blueprint for the Digital Tomorrow.

Industry Symposium, a perennial satellite event of the ICDCIT series since 2011 establish a key connection between business and academics. It is going to be held in conjunction with the 22nd Edition of ICDCIT from 16th to 19th. This symposium aims to explore and invites chapter on **“Reinventing Finance: A New Blueprint for the Digital Tomorrow.”**

The symposium primarily focuses on Core Technologies and Key Application Areas within the financial sector. This includes topics like peer-to-peer lending, AI-based risk scoring, digital banking (Neobanking), algorithmic trading, and robo-advisors. Its broader goal is to establish a strong foundational knowledge of modern financial innovation and its related fields.

“Reinventing Finance: A New Blueprint for the Digital Tomorrow” would provide a panel of expertise from Digital Finance industries to discuss, exchange ideas, and work together to tackle the intricate problems and possibilities.

Publication :
